1. The VEB Warmetechnik Dresden shipped out nine spot welding machines in December 1953 and January 1954.
2. The production of treating equipment for airplane fuel continues unchanged.
3. Production of hydraulic pumps has been increased; 38 were manufactured in January 1954.
4. The material supply situation is good. There are recurrent interruptions of production through shortage of turbine steel, but these are quickly overcome in most cases. The Kabelwerk Obersprea in Berlin is now delivering parts regularly.
